A pride to be proud of.

**T**his year, Dallas Institute of Funeral Service began a new chapter of Lions Club International within the school, and they are thriving. The Dallas Institute Chapter has succeeded at organizing several projects to help the surrounding community.

The biggest project yet was a quarter long food drive to help Dallas Resource Center fill the shelves of one of their food banks. The Lions Club

challenged the three classes, freshmen, juniors and seniors, to compete against each other and see who could collect the most. The seniors came out on top for the win!

All three classes were able to collect over 1000 lbs. of nonperishable food items! Wow! The senior lions took the food down to our friends at Dallas Resource Center and put it right on the shelves for anyone in need. Thank you Lions!
