History of College

The Dallas Institute of Funeral Service has a rich and storied history dating back to the turn of the century. One of the earliest schools of embalming in the United States, particularly in the South and Southwest, was founded in Dallas, Texas, initially known as the Barnes School of Anatomy. Founded by Dr. Carl Barnes in 1900, it later evolved into the Dallas School of Embalming under the direction of Professor Hood F. Smith and Professor Will Dwyer.

In 1945, the Dallas School of Embalming was succeeded by the Dallas Institute of Mortuary Science, established by W.H. Pierce and L.G. Frederick. Over the years, the institute underwent significant developments and expansions, including a merger in 1954 with the Gupton-Jones College of Mortuary Science in Nashville, Tennessee. This merger led to the creation of a new entity known as Dallas Institute – Gupton-Jones College of Mortuary Science.

Upon the passing of Professor Dwyer in 1945, the funeral service profession's representatives discerned the necessity of maintaining such a vital educational institution in the region. W.H. Pierce and L.G. Frederick, acknowledging this need, assumed the responsibility and formed a partnership, establishing the Dallas Institute of Mortuary Science. Mr. Frederick assumed the role of full-time director and administrator of the college, ensuring the continuity of its mission and service to the community.

On April 1, 1963, the Dallas Institute of Mortuary Science underwent a significant transformation, transitioning into a non-profit corporation in accordance with the laws of the State of Texas. This change reflected its commitment to advancing mortuary education and related fields. The newly formed corporation aimed to engage in various activities aimed at promoting and enhancing mortuary education, with a primary focus on educational skills, scientific research, and the dissemination of research findings.

One of its key objectives was to operate a school dedicated to teaching the business and profession of funeral service. Additionally, the institute sought to provide educational instruction across a broad spectrum of subjects, encompassing the arts, sciences, and other relevant areas. These instructional endeavors were guided by recommendations from the Board of Trustees and accreditation agencies affiliated with the funeral profession, ensuring alignment with industry standards and best practices.

In 1969, the Dallas Institute received an invitation to establish a satellite branch in Atlanta, Georgia. Given the considerable number of graduates from Gupton-Jones College during its tenure in Nashville, the Board of Trustees opted to resurrect this renowned name for the new Atlanta branch. Consequently, the Dallas Institute reverted to its original name, Dallas Institute of Mortuary Science, before eventually transitioning to its current designation, Dallas Institute of Funeral Service.

In 1972, the Kentucky School of Mortuary Science in Louisville, Kentucky, integrated into the organization, followed by the addition of the Indiana College of Mortuary Science, originally situated in Indianapolis, Indiana, in 1978. Concurrently, the non-profit corporation underwent a name change from Dallas Institute of Mortuary Science to Pierce Mortuary Colleges, Inc. Each satellite school within the organization adopted its distinct identity.

General Information

As a result, the Dallas Institute of Funeral Service became one of several colleges under the umbrella of Pierce Mortuary Colleges, Inc. While each institution operated independently, they were legally affiliated with the overarching non-profit corporation.

The original Board of Trustees consisted of W. H. Pierce as Chair, along with members L. G. Frederick, Paul Bollman, Robert Kite, and Floyd Owens. Mr. Frederick assumed the role of college president, while Robert Kite served as the dean. Following Mr. Frederick's retirement in 1963, Mr. Kite assumed the presidency, holding the position until his retirement in 1992. Subsequently, James M. Shoemake succeeded Mr. Kite as president.

In 2018, James M. Shoemake retired as president after leading the Dallas Institute for twenty-six years. During his tenure, the institution witnessed notable enhancements, including a substantial rise in retention and graduation rates, strengthening its reputation. Shoemake implemented crucial additions to its academic programs and spearheaded the introduction of a robust online, distance-funeral service education program.

His leadership was characterized by ambitious standards, integrity, and continuous improvement, leaving an indelible mark on the college's culture that will endure for years to come.

Wayne Cavender, his successor, assumed the presidency in May 2018. Under his leadership, the institution experienced exponential growth in student enrollments in the distance learning program. However, in 2022, Mr. Cavender transitioned to a new role within the Pierce Mortuary Colleges organization, serving as the Senior Director of Accreditation and Alumni Relations for the Dallas Institute.

During the interim period, Mr. Dominick DeLorenzo took on the role of president until Joseph Finocchiaro assumed the presidency in August 2023.

Recognizing the need for modern facilities, the institute relocated to a larger campus on South Buckner Boulevard in Dallas in September 1983. Subsequent renovations and additions in 1995 further enhanced its state-of-the-art facilities.

With nearly 10,000 alumni who have excelled as funeral directors and embalmers, the Dallas Institute of Funeral Service continues to uphold its tradition of excellence and remains a cornerstone in mortuary education.

Student Conduct

Dallas Institute of Funeral Service is a learner-centered institution, building intellectual inquiry and discovery into funeral service programs in a way that fosters knowledge and innovation and transforms wisdom into action. Dallas Institute provides leadership in teaching, learning, service, and is committed to enhancing the future of our students. To fulfill this purpose, a Code of Student Conduct (the Code) is necessary. The Code reflects the values of our community. It also defines clear behavioral expectations that help to ensure an orderly educational environment and encourage free inquiry and expression. The College encourages all students to embrace a commitment to ethical behavior that is positive, open-ended, and reflective of our mission as a funeral service College.

Because of these values, all individuals within the College community are expected to conduct themselves in a professional and civil manner in the College setting as well as in the community. Responsibility for fulfilling the obligations of the Code of honor is shared by the students, faculty, and every other member of the College community. These values include:

- Academic honesty
- Ethical conduct
- Fairness
- Integrity
- Personal responsibility
- Respect for others
- Trustworthiness

Purpose

Dallas Institute expects students to maintain standards of personal and social behavior that uphold the mission and values of the institution. Dallas Institute students are expected to contribute to the development and sustenance of a community characterized by respect, care, and honesty.

The Student Code of Conduct encourages students to take responsibility for positively contributing to our living and learning community. The College affords certain rights to students and expects in return that students will conduct themselves in a mature and responsible manner that best represents the College, funeral service, and themselves. If, however, the behavior or conduct of a student infringes on other members of the College community or negatively affects the institution, the College reserves the right to address the behavior through the conduct process prescribed. The conduct process is not a formal grievance; see Formal Grievance Policy.

Students are responsible for being fully acquainted with all rules and regulations pertaining to students, and for complying with them accordingly.

By enrolling in Dallas Institute, students agree to assume the obligation to conduct themselves in a manner that is civil and compatible with the College's mission and function as an educational institution. Students agree that their rights can only be honored when they agree to honor the rights of other members of the campus community. Students who find their personal values incompatible with those of the College, and who are unable to respect the College's values, may wish to pursue their education at an institution which is more in line with their own personal values.

Principles of Code of Conduct

Respect for Others – One value of learning lies in understanding what knowledge can contribute to the community. It is expected that students will be open to learning, including learning about and respecting persons and cultures different from their own. Members of the campus community must act out of mutual respect to establish an atmosphere of trust, without which there is no community. Therefore, Pierce Mortuary Colleges expects its members to treat one another with sensitivity, consideration, understanding, tolerance, and active concern for the welfare of others. The College is particularly concerned that its members show respect for others regardless of race, color, age, veteran status, gender, national origin, religion, marital status, sexual orientation, gender identity, or presence of a disability.

Respect for Property – The mission we share depends upon the responsible use of all property, including such tangible goods as the building, library materials, equipment, and green space. Respect for property also involves helping to foster a well-maintained environment, a sense of security, tranquility, and accomplishment. This principle requires students to respect both personal and institutional property, both inside and outside the College community.

Respect for Authority – Authority derives legitimacy from the commitment to act on behalf of the common good. At Pierce Mortuary Colleges, that authority primarily resides in the administration, faculty, and staff – each of whom has been charged with responsibilities essential to the orderly operation of the College. They help to define the atmosphere that supports and fosters the College's shared mission. Additionally, these individuals provide structure to preserve the well-being and freedom of community members and an orderly environment in which all can develop.

Honesty – The College's educational mission reflects a commitment to the development of the whole person. While at the College, students are expected to demonstrate the personal characteristic of honesty and integrity in all aspects of their campus life, both inside and outside the classroom.

Student Bill of Rights and Responsibility

Dallas Institute students are both citizens and members of the academic community. As citizens, students enjoy freedom of speech and peaceful assembly. As a member of the academic community, they are subject to the obligations that are theirs by virtue of this membership. When students attend the College, they become subject to its jurisdiction. Students are expected to conduct themselves in a responsible manner in all areas of campus life. By enrolling, they

Student Behavior & Expectation

pledge to obey the rules and regulations of the College and are responsible for observing all College Policies and Procedures. Students enrolling in the College assume an obligation to conduct themselves in a manner that is civil and compatible with the College's mission and function as an educational institution. In a community of learning, willful disruption of educational processes, destruction of property, and interference with the overall orderly processes of the College, or with the rights of other members of the College, cannot be tolerated. The College has the authority and responsibility to exclude those who find their personal values incompatible with those of the College, and who are unable to respect the College's values.

Promulgation

Dallas Institute will provide all new members of the community with a link to and/or a copy of this document as a part of the Student Handbook. Students and employees can obtain a copy on the website.

College Jurisdiction

Students are subject to all local, state, and federal laws. Conduct, whether on or off-campus which adversely affects the College's mission and purpose and/or potentially violates the Student Conduct Code will be subject to action through the College Student Discipline Process and, if warranted, careful consideration will be given to College disciplinary action in addition to whatever action civil authorities might pursue. The College may institute proceedings against students whose conduct is prohibited by the state, federal, or local laws and which occurs on or off-campus, when such conduct is also a violation of the Student Conduct Code, or College policies and regulations.

The Code of Student Conduct and the associated procedures cover all students (whether off-campus or on-campus). When alleged violations of the College regulations or local, state, or federal laws or statutes take place off-campus and come to the College's attention, the College reserves the right to take appropriate action. The Student Code of Conduct and the procedures through which it is implemented will also apply to distant learners and employees.

Locations

Student Codes shall apply to conduct that occurs on College premises, at College sponsored activities, in online social spaces, and to off-campus conduct that adversely affects the College Community and/or pursuit of its objectives.

- 1. College Premises:** Student Codes apply to all lands, buildings, facilities, and other property in possession of, owned, leased, used, or controlled by the College, including all adjacent streets, sidewalks, and parking lots, as well as to any location where a student is engaged in a College activity. Examples of such coverage include, but are not limited to, College teams traveling to events off-campus, student organizations engaging in an event or activity off-campus, off-campus internships, locations where students are involved in College-sponsored community service projects, clinical locations, funeral homes, and all practicum requirements off campus, etc.

2. **Off-Campus Behavior:** Off-campus behavior that is detrimental to the College or its students, faculty, or staff in their roles as members of the College community is governed by the Student Codes. Dallas Institute reserves the right to take actions that address the violations through educational intervention or sanctions. The College President shall decide whether the Student Codes shall be applied to conduct occurring off-campus, on a case-by-case basis, in their sole discretion.
3. **Online Behavior:** Students are responsible for behavior consistent with the lawful purposes of the College, both on and off-campus, which includes use and behaviors while using social media, especially, but not limited to College affiliated pages, blogs, forums, etc. All students who interact and engage through social media are expected to comply with the Social Media Policy and Student Code of Conduct. Inappropriate content that is in violation of Student Codes will be referred to College President for conduct action. Students are responsible for knowing the policies of the College and academic programs in which they hold membership. Individuals and/or student organizations may be held accountable and will be asked to remove the content or shut down their social media account(s).

Procedures in Reporting Violations of the Code of Conduct

Any individual from inside or outside the College community may file a report against a student suspected of violating College Regulations. A Code of Conduct report may be made in writing to the President of the College. We encourage any Code of Conduct violation to be submitted as soon as possible after the event takes place.

Student Disciplinary Procedure

The conduct process is an educational tool that assists the College in determining responsibility for misconduct and provides a method to redirect behaviors toward patterns more acceptable to the College community. The conduct process and conduct conferences are not a formal grievance See, Formal Grievance Policy.

Upon receipt of reports or other information that alleges a potential violation of the Code of Conduct or other rules and regulations pertaining to students, the Dean/College President will conduct a preliminary review of the matter. Students will be referred to a conduct conference with the Dean and or/College President. During periods when a timely conduct conference cannot be conducted, alternative procedures may be adopted to efficiently and fairly resolve cases. Students should be advised that conduct violations which disrupt the academic endeavors of the institution, such as those occurring during final exam week/ comprehensive exams, may result in the forfeiture of certain procedural protections in order to resolve the matter in a timely manner.

Refusal or Failure to Participate/Appear

Students scheduled to be present at a conduct conference are expected to appear as scheduled. Students who fail to appear will be considered in violation of the Code of Conduct (Refusal or failure to respond to a request to report to a College Administrative Office or a conduct

Student Behavior & Expectation

conference). A conference will be held in the student's absence, and the student will be notified in writing of the sanction(s) imposed.

Closed Proceedings

All preliminary meetings, conduct conferences, are closed processes open only to the Dean and/or President or other assigned College member, the accused student(s), and relevant called witnesses. The disciplinary process serves an educational rather than legal purpose; therefore, students are not allowed legal representation during a conduct conference, relatives, or other parties.

Concurrent Civil or Criminal Action

Disciplinary action may be initiated against a student charged with a violation of local, state, or federal law, which is also a violation of the Code of Conduct and/or other rules and regulations pertaining to students when both violations result from the same factual situation, without regard to pending civil litigation, criminal arrest, and/or prosecution. Conduct proceedings as set forth in this Code may be carried out prior to, simultaneously with, or following external civil or criminal proceedings.

Conduct Conferences

Students accused of alleged violations will typically be referred to a conduct conference with the Dean and/or College President or other designee. Students will be provided with reasonable notice of a scheduled conduct conference. At such a conference, students will be provided with notice of the alleged violation and an account of the alleged misconduct upon which the violation is based. Students will be afforded the opportunity to offer a relevant response to the alleged violation and alleged misconduct. Accused students will be required to answer fully any questions asked of them by the Dean and/College President or other designee. During the Conference, students are expected to uphold the Code of Conduct and be honest at all times. For a student to be found responsible for a violation of the Code of Conduct and/or any other rules and regulations pertaining to students, it should be determined that it is more likely than not that an alleged violation occurred. If the Dean and/or College President or designee does not believe additional investigation is warranted, a determination as to responsibility will be made, and if applicable, a sanction determined. The Dean and/ or College President or designee will provide the student with written notification of the outcome of the conduct conference.

Below are the procedural steps:

1. Notice of any scheduled conduct conferences
2. At such Conference, students will be provided with notice of the alleged violation and the account of the alleged misconduct upon which the violation is based
3. Opportunity to offer a relevant response to the alleged violation and alleged misconduct
4. To receive written notification of the outcome of the conduct conference

Maintenance of Records

When a student is accused of violating the Student Code of Conduct, the file contains all the information pertinent to the situation in which a student has been involved. Each subsequent time a student is accused of violating the Student Code of Conduct, his/her prior record may be used within the Conduct Conference in determining sanctions. Such records shall be maintained until the graduation of the student or as deemed necessary.

Sanction Information

The purpose of disciplinary sanctions is to redirect students' behaviors toward patterns more acceptable to the College community, if such redirection is feasible; and/or to protect the College community from possible harm or injury. This information is outlined to assure that students are aware of the potential consequences of their misconduct. Sanctions will be determined on a case-to-case basis, utilizing three main criteria:

1. The nature of the offense
2. The precedent, if any, established at the College for similar offenses, and
3. The previous disciplinary history of the student, if any, and the student's attitude and behavior throughout the disciplinary process

Students should be aware that if a student fails to comply with College directives and/or conduct sanctions or formal disciplinary, may have holds placed on the release of their grades, record and/or transcripts. More importantly, continuation or repetition of non-compliance will result in more serious penalties.

Formal Disciplinary Sanctions

The College may impose any of the following sanctions on a student or group of students. A list of disciplinary sanctions that may be imposed in cases of violation of the Student Code of Conduct follows:

1. **Informal Action.** It means educating students about the behavioral standards expected of them as members of the College community and holds them accountable for inappropriate conduct. The issuance of an oral or written warning, educational sanction and/or use of disciplinary procedures may result if it is alleged that a student has engaged in inappropriate behavior.
2. **Educational or Developmental:** Educational or Developmental sanctions are required activities intended to engage the student in a positive learning experience related to the student's inappropriate behavior. Positive actions should allow students to reflect upon their inappropriate behavior, to learn about the behavior in which they engaged, and to gain an understanding of why it is inappropriate or unacceptable. Such actions may include attending, presenting a program related to the implications, or writing a report related to the implications of the student's conduct, or engaging in a campus or community service project.
3. **Warning.** Verbal or written notice that specific inappropriate conduct is unacceptable. A warning serves as a notice to a student, either written or verbal, that a failure to meet the College's expectations for student conduct has occurred. The warning serves to the student

Student Behavior & Expectation

as a caution that the continuation or repetition of such behaviors will result in more serious penalties. The Dean may authorize a Warning to a student after approval of the President.

4. **Reprimand.** An official written censure is required. A reprimand for inappropriate behavior, notice that the conduct associated with the violation must stop immediately and permanently, and notice that additional violations shall result in more severe sanctions.
5. **Temporary Suspension.** The Dean may temporarily suspend any student when: (1) the student is ordered by an administrator or faculty member to cease or desist any activity which disrupts the orderly operation of the College and (2) the student persists in activity which is disruptive after receiving the warning and order. The Dean will present recommendations for a temporary suspension to the President. Only the President may approve a temporary suspension. The Dean may authorize a suspension only in the absence of the President.
6. **Expulsion.** Mandatory immediate separation from the College with no promise of future re-admission. A student who has been received an expulsion is barred from enrolling at or visiting any of the campuses of Pierce Mortuary Colleges. The student may re-enroll at the College when the suspension order has elapsed. In addition to forfeiting all tuition, the student suffers all the other losses and restrictions imposed upon the dismissed student. Suspension students additional forfeit all academic credit for all courses carried for the quarter in which the violation occurred. The Dean will present recommendations for a suspension to the President. Students who are arrested and/or jailed by a law enforcement agency for a serious crime are subject to immediate interim suspension from the College, pending a review of the case. Only the President may authorize a suspension.
8. **Dismissal.** Dismissal is permanent expulsion from the College; it may be ordered as a result of very serious violations and/or repeated offenses. In addition to forfeiting all tuition, the student suffers all the other losses and restrictions imposed upon the dismissed student. Dismissed students additional forfeit all academic credit for all courses carried for the quarter in which the violation occurred; and are never again eligible to apply for readmission to the College at any time. A student who has been received a Dismissal is barred from enrolling at or visiting any of the campuses of Pierce Mortuary Colleges. The Dean will present recommendations for a Dismissal to the President. Only the President may authorize a Dismissal.
9. **Restitution.** Compensation for loss, damage, or injury. This may take the form of appropriate service and/or monetary or material replacement. A student whose actions deprive the owner of possession of, damage, deface, or destroy any College or personal property, or create a financial expense to address impacts of said behavior shall be required to restore said property by replacement or by monetary reimbursement, in addition to any other sanctions which may be imposed. Restitution charges will be placed on the student's account and must be paid in full immediately.

Departure from Campus Following Expulsion, Suspension, or Dismissal

Any student who has sanctions of expulsion, suspension, or dismissal from the College for conduct or other reasons, must leave the premises immediately after being notified of such action.

Postponement of Activity, Participation, and Conferring of Honors and Degrees

The College reserves the right to delay or postpone the involvement of a student in any College-related activity, or delay or postpone the conferring of any honor or degree while any student conduct investigations or procedures are pending.

Appeal Process

When a student is formally notified of the findings from a conduct conference, the student has the right to appeal the finding or results of the hearing. All appeals should be directed at the College President. Such appeal request must be filed in writing no later than three (3) College business days after the date of the written results of the conduct conference. Appeals from students found responsibly will be granted on the following grounds:

1. The student was not afforded their procedural steps outlined in the Conduct Conference section within the Student Code of Conduct policies, and this significantly affected the student's ability to receive a fair conference
2. New and substantive information has become available since the initial Conference, which would have significantly altered its results

The College President will only review a written appeal request, the case file, and written findings from a Conduct Conference. A new conduct conference will be held. All sanctions assessed from a conduct conference will remain in effect during the appeal period and process, until such time as they are reversed or modified. The Appeals Conduct Conference results may be to void the decision, uphold the decision, or alter the sanctions. The decision in all appeals reviews will be reviewed by Corporate and are final.

A student shall neither publish, nor cause or permit to be published, the terms and conditions of this Agreement/process, Conduct Conferences, Appeals Conference, decision results, Witnesses, College employees name(s), student name(s), the College name, or the like, in any press release, newsletter, newspaper, flyer, circular, social media site, like Facebook, Twitter, or Instagram, or other publication, online or offline. These actions will result in dismissal. This will result in more serious penalties.

Disruptive Classroom Behavior Policy

Disruptive behavior is prohibited by the Student Code of Conduct. Disruptive behavior includes but is not limited to conduct that interferes with or obstructs the teaching or learning process. Civil expression or disagreement with the course instructor, during times when the instructor permits discussion, is not itself disruptive behavior and is not prohibited.

1. Temporary Removal of Student from Class or Other Educational Experience
 - When any student, acting individually or in concert with others, obstructs or disrupts, or attempts to obstruct or disrupt any teaching, or any other activity authorized to be discharged on behalf of the College or held on the College's premises, the student may be asked to stop the disruptive behavior by an instructor or staff of the College. If the student continues, an instructor/staff member is authorized to tell the student to leave the area or classroom and, if the student will not leave, to immediately notify the Dean/President of the College, without any request to the student
2. Withdrawal of Student from Class or Other Educational Experience
 - When a student disrupts a class or other educational experience, or if the student's behavior or lack of preparation is detrimental to the educational experience of others, or if the student is compromising the learning environment, the instructor may take action to withdraw the student from the class or educational experience as a result of the significant and/or repeated behavior. To do this, the instructor shall confer with the Dean and College President
3. Referral of Student Conduct Issues to the College President
 - Instructors, faculty members, Deans, and/or staff are to report student conduct issues to the College President. This reporting ensures that any other student code of conduct related behavior is appropriately addressed with the student

Special Administrative Evaluation

Dallas Institute reserves the right to deny admissions, continued enrollment, or re-employment to any applicant or student as a result of the College receiving information, or the applicant's or student's failure to disclose information, on the admission or employment application, regarding a student or employee whose personal history and background indicate that their presence at the College would endanger the health, safety, welfare or property of their selves or members of the academic community, or interfere with the orderly and effective performance of the College's functions.

A student may be subject to special requirements or sanctions, including but not limited to; expulsion, suspension, or dismissal from the College, for actions not otherwise covered in the Student Code of Conduct if it is determined from the student's behavior that they:

1. Lack the capacity to understand the nature of the accusation against them, or to respond and participate in the disciplinary process

2. Poses a danger to their self or others, and/or
3. Has become gravely disabled (lacks the ability to care for their self)

In such instances, the case will be referred to the President, or Dean, who may ask the student to get an appropriate medical and/or mental health care professional to receive an evaluation, prior to returning to school. Students must consent to evaluation as a condition of their enrollment or continued matriculation. The student will seek an independent medical or psychological evaluation (at their own expense), for purposes of this review. Any student who refuses to participate in any such evaluation may be dismissed or suspended as suspended by the President of the College.

The College reserves the right to adjust the Conduct Process as it determines necessary in order to assure fairness, order, efficiency, or the physical and emotional security of individuals.

Behavioral Expectations

Your employer will expect you to arrive on time and be present to complete your responsibilities, therefore as a student:

- They are responsible for arriving on time for class. Any late arrival or early departure is a disruption
- Do not enter the classroom when a classmate is giving a presentation
- If you must leave early, let your instructor know in advance and sit as close as you can to the door that day
- Do not leave and reenter the classroom unless it is necessary

If you are in a meeting at work, you will be expected to give your full attention to the meeting and your co-workers will not expect to be interrupted or distracted by your electronic devices:

- Turn off all electronic devices except computers, if appropriate, when entering a classroom
- Do not use any electronic device for anything other than what is related to the class they are attending at the time they are attending it
- Do not make/answer calls or text messages during class (if it is necessary for them to take an emergency call, they should tell the instructor if there is a problem before class begins and leave the room to take the call)

In order to work as an effective team member, employees must respect the people with whom they work, therefore as a student:

- Address instructors with the title “Dr.”, “Professor”, “Mr.” or “Ms.” as appropriate to their qualifications. It is inappropriate to call an instructor by their first name
- Demonstrate the kind of behavior toward classmates that they expect to demonstrate to their co-workers
- Complete the portion of any team assignment they have agreed to accomplish.
- Develop the skill of respectful disagreement and logical argument

Student Behavior & Expectation

The workplace will have nonnegotiable deadlines, therefore as a student:

- Assume that the due date and time for an assignment is as important as the due date/time for a workplace report
- Assume that the date and time assigned for your presentation is as essential as a due date/time for a presentation to a client

As an adult, you are responsible for the details that accompany your work products, therefore as a student:

- Present homework assignments in the required format
- Do not assume the instructor will provide staples, paper, folders, printing services or any other material required for their final work product
- On the day of an exam, bring pencils, calculators, and everything they will appropriately need to complete the exam

In the workplace, employees are expected to edit written documents for correct word choice, grammar, sentence structure and spelling, therefore as a student:

- Do not expect to be able to prepare a written assignment without allowing ample time for review and revision. They should put all written assignments through several drafts, writing and rewriting over a period, before they consider them prepared in a professional manner for submission to their instructor

E-mail is a means of professional communication and the official communication of the college:

- Write e-mails to instructors and students in a professional format. Do not write in the same shorthand used in text messages. Language should be gracious and polite
- Address the recipient by name
- Use grammatically correct sentences
- Check spelling
- Sign their complete name
- Include the title and section of the course, if appropriate

Improper dress is distracting in the workplace, therefore as a student:

- When attending class and, most importantly, when giving a presentation, attire should be professional. Dress appropriately

The organizations for which employment is sought will expect and promote ethical behavior, therefore as a student:

- Ensure that their work is indeed THEIR work. Do not plagiarize from written or electronic sources. Do not use the work of others with the intent to present it as their own

Even when in an entry-level position, colleagues and supervisors expect that previous experience and education will influence one's ability and potential to perform on the job. You will be responsible for your own learning:

- Take ownership of concepts learned in previous courses and be prepared to apply them to current coursework
- Acknowledge that their effort to acquire their previous academic skills (e.g., writing and math skills) will affect their performance in many of their courses

Dress and Personal Appearance Policy

No dress code can cover all contingencies so students and/or staff must exert a certain amount of judgment in their personal appearance choices. Students that experience uncertainty about acceptable attire, please ask the administration. The College reserves the right to decide what is or is not appropriate regarding the dress code. The dress code is based on the theory that learning to use socially acceptable manners and selecting attire appropriate to professional dress, specific occasions, and college activities are critical factors in the total educational process. It is important for all students, faculty, and staff to understand and employ these behaviors, which contributes to optimum morale as well as embellishes the overall campus image. The following dress code plays a major role in instilling a sense of integrity and an appreciation for values and ethics.

Students will be denied admissions to class and various functions if their manner of dress is inappropriate.

- Al-Anon for Families of Alcoholics 1-888-425-2666

The College cooperates with all law enforcement agencies in the prevention of drug abuse and drug trafficking. Persons caught in the possession of a controlled substance will be turned over to the appropriate legal authorities and may face severe consequences. Some of these, as prescribed by local, state, and federal law, are costly fines and/or incarceration. Before a problem becomes overwhelming, Dallas Institute of Funeral Service encourages its students and faculty to seek help from a qualified counselor with an appropriate agency.

At Dallas Institute there is a need to balance the accessibility and use of facilities with the need to provide a safe and secure environment. Convenience must sometimes be compromised in order to maintain security. The Dallas Institute community member must share in the responsibility to assure security for all members and property.

Key and Building Security Guidelines

Dallas Institute shall maintain a locking system for the protection of its community members, facilities, college property, and information. All locks, keys, electronic access key-fob/cards, and access codes are the sole property of Dallas Institute and will be issued to students and employees based on their need for access. The college reserves the right to change locks, keys, and access codes as needed.

Keys and Electronic Access Fob/Cards

1. Dallas Institute employees will be issued keys based upon their need for access
2. All keys and electronic access cards must be returned to the college upon termination of employment or enrollment

Code (combination) Locking Devices

1. The security code is changed on a periodic basis. Eligible employees and students are notified by college e-mail of the change. Each college, *at minimal*, must change the security code after each graduating class for all interior and exterior code locking devices
2. Security codes are changed upon termination of employees that had access
3. Code changes must occur upon termination of an employee, employee permanently leaves the college for any reason, or if the code has been lost or compromised
4. The college will maintain a record of code change dates and new code information
5. Office codes are given to employees only and must have be changed on a periodic basis
6. No students will be given a key to the building, classrooms, or offices

Loaning of Keys

1. College employees and students shall not transfer issued keys, access cards/key-fobs, or access codes
2. Anyone found in possession of another's keys, card, or code shall have the keys or card confiscated permanently by the president of the college
3. Individuals violating the policy on the loaning of keys will be subject to disciplinary action

Maintenance of Locking Systems

Maintenance and installation of Key-Fob/Card Access System and key and code combination locking systems is the responsibility of the president of the college.

Key-Fob/Card Access System

1. Colleges that have the Key-Fob/Card Access System must maintain a record of issue and name of student or employee
2. Colleges that have the Key-Fob/Card Access System must maintain a record of re-issuing of key-fob/card access and the termination of access of the key-fob/card when a student (or employee) has been terminated, graduated, or no longer is enrolled
3. See Fee Section for cost associated with Key-Fob/Card Access

Smoking Policy

There will be no smoking, use of smokeless tobacco, or use of electronic cigarettes inside the facility; i.e. in hallways, lecture rooms, laboratories, restrooms, library, bookstore, storage areas, student center, offices, and the waiting area of the administrative offices or outside any unauthorized school entrances. Dallas Institute desires to provide the best and most healthful environment possible for all. Notwithstanding, designated smoking areas with appropriate disposal containers are provided.

ADA Accommodations

Dallas Institute of Funeral Service is committed to providing equal access and opportunity to qualified individuals with disabilities in accordance with the Americans with Disabilities Act of 1990 (ADA), as amended by the ADA Amendments Act of 2008 (ADAAA), and Section 504 of the Rehabilitation Act of 1973. Discrimination against individuals with disabilities in any College program, service, or employment activity is prohibited.

The College will provide reasonable accommodation and academic adjustments to ensure equitable access to programs and services, so long as such accommodations do not fundamentally alter the nature of a program or impose an undue burden.

Responsibilities and Documentation

Individuals seeking accommodation are responsible for:

- Self-identifying as a person with a disability when requesting accommodations.
- Submitting appropriate documentation from a licensed healthcare provider, establishing the disability and functional limitations.
- Engaging in an interactive process with the College to determine reasonable accommodations.

All medical and disability documentation will be kept confidential and handled in compliance with federal and state laws and institutional policy.

Additional Reference Resources

For additional guidance on common accommodations and documentation standards, students and employees may consult the following College Board resources:

The Accommodations Committee will consist of the following members:

- Director of Academics
- CEO or designated representative
- One Dean
- One Academic Advisor
- One Full-Time Instructor

The committee will review each request and engage in an interactive process with the requesting individual as needed. The final accommodation plan will be communicated to the student or employee in writing.

Institutional Commitments

The College will:

1. Ensure courses and facilities are accessible or provide suitable alternatives.
2. Make reasonable modifications to courses or academic environments to facilitate access.
3. Provide appropriate auxiliary aids and services (e.g., interpreters, alternate formats, assistive technology) for individuals with communication, sensory, or mobility impairments.

Limits to Accommodations

Accommodation may be denied when:

- The individual poses a direct threat to the health or safety of others that cannot be mitigated through reasonable accommodation.
- The accommodation would fundamentally alter an academic program, testing environment, or essential requirements.
- The accommodation would impose an undue burden (i.e., significant difficulty or expense) on the institution.
- The individual does not meet essential eligibility requirements for program participation.

Essential Program Requirements

1. Embalming Program

Applicants must be physically able, with or without accommodation, to:

- Perform disinfection, locate & raise circulatory vessels, insert arterial tubes, perform cavity embalming, perform other acts of embalming or demi-surgery as the case may require, suturing, and restoration of deceased remains in a timely and competent manner.

2. Funeral Directing Program

Applicants must be able, with or without accommodation, to:

- Understand and process incoming information from others.
- Effectively communicate that information to third parties.

Applicants needing accommodation should consult the Student ADA Coordinator (President/Dean) early in the admissions process. Additional documentation from a qualified provider may be required.

Verification of Disability and Accommodations

To verify eligibility, students must:

- Submit documentation identifying a substantial limitation to one or more major life activities (e.g., walking, learning, reading, speaking, concentrating).
- Ensure documentation is submitted during the enrollment process, or if/when the limitation occurs.

The Student ADA Coordinator will review all documentation in compliance with the law and protect the confidentiality of disability records.

Appeals Process for Accommodation Decisions

Students and employees have the right to appeal accommodation decisions. The formal process is as follows:

Steps to Appeal:

1. Submit a written appeal to the designated administrator (e.g., Dean, President, PMC Human Resources) within 10 business days of the decision.
2. The appeal should include:
 - A summary of the accommodation request.
 - Reason for the appeal.
 - Any supporting documentation or explanation.
3. The designated administrator will forward the appeal to the Accommodations Committee. The committee will convene with at least three (3) alternate members to review the appeal.
4. A final written decision will be issued within 15 business days of receiving the appeal.
5. This decision is final and will be retained in the student's or employee's ADA record.

Embalming Clinical Policy – Student Pregnancy

The American Board of Funeral Service Education (ABFSE) Standards of Accreditation requires students to complete clinical embalming and demonstrate competency as a requirement to earn their degree. This clinical requirement cannot be waived. Failure to complete this requirement can halt progress in the student's program of study and delay their graduation.

Formaldehyde and Its Risks

Formaldehyde is a colorless gas with a pungent odor, widely used as the primary preservative in embalming. It is classified as a potential carcinogen, teratogen, and mutagen:

- **Teratogens** are substances that can cause birth defects or increase the risk of congenital disorders.
- **Mutagens** are chemical agents that alter DNA, potentially causing cellular damage, disease, or cancer.

Students who are pregnant or planning to become pregnant while performing clinical embalming will be exposed to formaldehyde vapor, which can pose significant risks, including pregnancy complications, congenital abnormalities, or miscarriage. Although some industry publications provide guidelines and best practices that can be used during pregnancy, these are editorial opinions and not peer-reviewed medical or scientific recommendations. As an institution, we prioritize the elimination of risk over its mitigation.

Institutional Recommendation

Pregnant individuals or those seeking to become pregnant are strongly encouraged to consult with their primary care doctor or other medical professionals before enrolling in embalming classes. Pregnant individuals or those seeking to become pregnant should wear proper personal protection equipment as well as a formaldehyde vapor neutralizing mask to reduce the risk of complications.

Options for Pregnant Students

Students who choose to defer participation in the embalming lab or clinical work due to pregnancy may be eligible for:

1. **Course Withdrawal:** A full refund of course tuition, if requested before the end of the Add/Drop period or proration after the Add/Drop period.

Campus Safety

Incomplete Grade: Assignment of an Incomplete “I” grade allows the student to resume clinical work after the pregnancy and complete the clinical embalming requirements. **In order to qualify for an incomplete grade the student must complete all academic course work in the class and be passing the class.** Students who take an Incomplete cannot progress to any course where the Incomplete course is a prerequisite. The Incomplete “I” grade will be changed upon successful completion of all outstanding clinical requirements, subject to faculty approval and institutional policies.

Sexual Misconduct and Discrimination

Academic Advising

The goal of academic advising is to support students as they develop individualized paths through the funeral service curriculum and allowing students to meet their academic, personal, and professional goals. Academic advising is a very important part of the educational experience. The advising staff assist students with choosing to enroll full-time or part-time, provide guidance with academic and graduation requirements, and in deciding their preference in online or on-ground platforms. This team also assists students in determining which program available throughout Pierce Mortuary Colleges is the most appropriate for them, whether that be an associate, bachelor, or certificate program. Prior to enrollment, the Admission Advisors support students with academic related questions. After enrollment, the Academic Advisors serve as a primary point of contact, working in collaboration with faculty, campus partners, and other resources to support students' academic success.

The College desires to see all students achieve their life goals. For advising related questions, please contact admissions@dallasinstitute.edu (prior to enrollment) or registrar@dallasinstitute.edu (after enrollment) or call, (214) 388-5466.

Academic Honors

A CGPA of 3.5 or above and with no individual course average below a "C" (75%) entitles a student to Academic Honors. A student who has been placed on disciplinary probation anytime during the year is ineligible for this award.

Awards

Other than the awarding of scholarships throughout the time spent at Dallas Institute, students are also recognized with the presentation of several awards at the graduation ceremony.

These awards represent the diligent and hard work that funeral service education students must do to prepare for their future in the industry.

Valedictorian – The Valedictorian award is given to the student who has achieved the highest overall grade point average. This student receives the highest academic honor.

Salutatorian – The Salutatorian award is given to the student who has attained the second highest grade point average overall.

Cum Laude – The Cum Laude honors award is given to the student who has maintained a grade point average (3.5 – 3.69) over the length of the program.

Magna Cum Laude – The Magna Cum Laude honors award is given to the student who has maintained a grade point average (3.7 – 3.89) over the length of the program.

Summa Cum Laude – The Summa Cum Laude honors award is given to the student who has maintained the highest-grade point average (3.9+) over the length of the program.

Mu Sigma Alpha – The Mu Sigma Alpha award is given to students within the top 10% of academic achievement. With this award, the student will receive a certificate and a key.

Academic Information

Exemplary Attendance – This award is a high achievement that shows great dedication and responsibility.

Dean's List – Students are placed on the Dean's List when they receive a 3.5 – 3.89 grade point average at the end of each quarter.

President's Circle - Students are placed on the President's Circle when they receive a 3.9+ grade point average at the end of a quarter.

Bill Pierce Award – The Bill Pierce Award has been presented by Pierce Mortuary Colleges at commencement exercises since 1972. The award recipient is a graduating student who is selected as the most representative of a funeral service practitioner using the following criteria:

- Personal neatness and integrity
- Dedication to Funeral Service
- A high degree of student fellowship
- An ambition and a desire to succeed
- A special all-around attitude which would qualify this recipient as an outstanding professional in Funeral Service

Attendance

The College views non-attendance as an academic issue and as an individual student responsibility. Students are expected to attend classes, labs, and required off campus activities. For campus classes, the instructor records attendance at the beginning of each class, lab session, or field trip on the daily attendance record, and it is transcribed to the Master Attendance Record. For online learning classes, instructors take attendance based on submitted assignments two times a week.

The College encourages students who miss a class, lab, field trip, quiz, or exam due to illness, injury, or other justifiable reasons to notify the instructor prior to the class that they are unable to attend and to follow the instructions provided on the course syllabus. It is up to the instructor's discretion to identify alternative assignments or timelines to allow the student to fulfill their academic responsibilities while accommodating their approved absence. It is the student's responsibility to obtain any material or assignments missed because of any absence. The student is likewise accountable for scheduled exams to be held upon the student's return to school, if allowed.

In instances where students need extended absences, they should discuss options with their academic advisor.

Minimum Class Size

To maintain a quality educational experience and balance fiscal responsibility, class enrollments that do not meet the established minimum class size for a quarter may be canceled or only offered in a specific modality. Moreover, workload inequities among faculty can occur when the same low-enrolled classes are allowed to continue over time.

This policy establishes clear and consistent guidelines for determining appropriate minimum class sizes and outlines exceptions to ensure transparency and fairness. It also recognizes the value the institution places on class offerings and ensuring degree progress for our students.

Minimum Class Size

Except for the cases discussed below, the college will cancel classes with fewer than 12 students in undergraduate programs (100 through 400 level courses). Enrollment in certificate programs must be high enough to break even financially, as determined by institutional financial guidelines.

Low-enrollment sections of multi-section classes should be canceled when sufficient seats are available in other sections to accommodate expected enrollment needs. The Registrar and Academic Dean will collaborate on low-enrollment sections prior to the start of the quarter to balance enrollment across sections, ensuring course size consistency. Classes with fewer than 12 students will be canceled at least five (5) calendar days before the start of the quarter unless they meet one of the outlined exceptions.

Exceptions to Minimum Enrollment Guidelines

College and educational priorities permit the following exceptions to the minimum enrollment guidelines:

1. **Degree Progress:** Cancellation of the class would likely delay or impede the enrolled students from making sufficient progress toward their degree, and other alternative classes or arrangements are demonstrably not possible. If the course is available in an online modality, students are expected to take the course in that modality.
2. **Small-Class Intensive Experiences:** Students are provided a unique opportunity for a small-class, intensive experience in capstone courses and embalming and restorative arts labs. These classes must comply with ABFSE standards and be of a size that fosters engaging discussions and interactions. Approval for these exceptions must be obtained from both the Campus President and Executive Vice President.

All exceptions must be documented, including the rationale and approval from designated authorities, to ensure transparency and accountability.

Class Cancellations

Classes that do not meet the minimum enrollment criteria and do not qualify for an exception will be canceled at least five (5) calendar days before the start of the quarter. The Academic Dean is ultimately responsible for canceling classes and ensuring timely communication of the cancellation to the students enrolled and the instructor assigned to the course. These tasks may be delegated to appropriate staff as needed.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. (An “eligible student” under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution.) These rights include:

- **The right to inspect and review the student's education records within 45 days after the day the College (“School”) receives a request for access.**

A student should submit to the registrar, dean, president, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The school official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the school official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

Record of Disclosures: The school maintains a record of all requests for and disclosures of student education records, except as provided by law. Students have the right to inspect and review this record of disclosures, which is kept with their education records by the Registrar's Office.

- **The right to request the amendment of the student's education records that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.**

A student who wishes to ask the school to amend a record should write the school official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the school decides not to amend the record as requested, the school will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures, including the hearing process and the appeals process, will be provided to the student when notified of the right to a hearing.

- **The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.**

The school discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the Dallas Institute of Funeral Service in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee. A school official also may include a volunteer or contractor outside of the Dallas Institute of Funeral Service who performs an institutional service of function for which the school would otherwise use its own employees and who is under

the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent or a student volunteering to assist another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the Dallas Institute of Funeral Service.

- **The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Dallas Institute of Funeral Service to comply with the requirements of FERPA.**

The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

- **FERPA permits the disclosure of PII from students' education records, without consent of the student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations.**

Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the student, §99.32 of FERPA regulations requires the institution to record the disclosure. Eligible students have a right to inspect and review the record of disclosures. A postsecondary institution may disclose personally identifiable information (PII) from the education records without obtaining prior written consent of the student:

- **To other school officials, including teachers, within the Dallas Institute of Funeral Service whom the school has determined to have legitimate educational interests.** This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in §99.31(a)(1)(i)(B)(1) – (a)(1)(i)(B)(2) are met. (§99.31(a)(1))
- **To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer,** subject to the requirements of §99.34. (§99.31(a)(2))
- **To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities,** such as a State postsecondary authority that is responsible for supervising the institution's State-supported education programs. Disclosures under this provision may be made, subject to the requirements of §99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their

Academic Information

authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf. (§§99.31(a)(3) and 99.35)

- **In connection with financial aid for which the student has applied or which the student has received**, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§99.31(a)(4))
- **To organizations conducting studies for, or on behalf of, the school**, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction. (§99.31(a)(6))
- **To accrediting organizations to carry out their accrediting functions.** (§99.31(a)(7))
- **To parents of an eligible student if the student is a dependent for IRS tax purposes.** (§99.31(a)(8))
- **To comply with a judicial order or lawfully issued subpoena.** (§99.31(a)(9))
- **To appropriate officials in connection with a health or safety emergency**, subject to §99.36. (§99.31(a)(10))
- **Information the school has designated as “directory information” under §99.37.** (§99.31(a)(11))

Directory Information: The Dallas Institute of Funeral Service has designated the following items as directory information: student name, address, telephone number, email address, date and place of birth, major field of study, participation in officially recognized activities and sports, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended. Students have the right to refuse to let the school designate any or all of these types of information about them as directory information by notifying the Registrar in writing within a specified time period after receiving this notice.

- **To a victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense**, subject to the requirements of §99.39. The disclosure may only include the final results of the disciplinary proceeding with respect to that alleged crime or offense, regardless of the finding. (§99.31(a)(13))
- **To the general public, the final results of a disciplinary proceeding**, subject to the requirements of §99.39, if the school determines the student is an alleged perpetrator of a crime of violence or non-forcible sex offense and the student has committed a violation of the school’s rules or policies with respect to the allegation made against him or her. (§99.31(a)(14))
- **To parents of a student regarding the student’s violation of any Federal, State, or local law, or of any rule or policy of the school, governing the use or possession of alcohol or a controlled substance** if the school determines the student committed a disciplinary violation and the student is under the age of 21. (§99.31(a)(15))

Copyrighted Materials

It is the policy of the College to adhere to the requirements of the United States Copyright Law of 1976, as amended, (Title 17, United States Code, hereinafter, the “Copyright Act”) including; ensuring that the restrictions that apply to the reproduction of software are adhered to and that the bounds of copying permissible sources under the fair use doctrine are not exceeded.

Accordingly, all students, faculty, and staff of Pierce Mortuary Colleges should adhere to the following policy guidelines:

1. Only copyrighted materials are subject to the restrictions in this Policy Statement. Non-copyrighted materials may be copied freely and without restriction. Because a copyright notice is not required for copyright protection of works published on or after March 1, 1989, **most works (except those authored by the United States Government) should be presumed to be copyright protected**, unless further information from the copyright holder or express notice reveals that the copyright holder intends the work to be in the public domain. With regard to works published prior to March 1, 1989, a copyright notice generally is required in order for them to be copyright protected.
2. Copyrighted software may be copied without the copyright owner’s permission only in accordance with the Copyright Act. Section 117 of the Act permits the making of a single archival back-up copy. Most software, however, is licensed to the user and the terms of the license agreement may give the user “permission” to make copies of the software in excess of the single archival copy permitted by the Copyright Act. Each software license agreement is unique, and its terms and provisions will vary from product to product and from company to company. As a result, the extent of the user’s rights to copy licensed software beyond that which is permitted under the Copyright Act cannot be determined without reference to the user’s license agreement with the software copyright owner. It is the policy of Pierce Mortuary Colleges that any copying or reproduction of copyrighted software on Pierce Mortuary College computing equipment must be in accordance with the Copyright Act and the pertinent software license agreement. Further, faculty, staff, and students may not use unauthorized copies of software on Pierce Mortuary College owned computers or computers housed in any Pierce Mortuary College.
3. Copyrighted materials may be copied without the copyright owner’s permission where such copying constitutes “fair use” under the Copyright Act. Section 107 of the Act identifies four factors to be considered in determining whether a use is fair. While this statutory “balancing test” is the ultimate test of fair use, Congress has endorsed certain guidelines that provide more concrete guidance to educators as to the boundaries of permissible copying. Generally, copying is permissible as fair use to the extent it is permitted by the guidelines set forth in Fair Use. In some cases, copying not within the guidelines nevertheless may constitute fair use; however, before proceeding on that assumption, the appropriate administrative office may need to request legal advice.
4. In order to copy materials including software where:
 - a. the materials are copyrighted, and
 - b. copying extends beyond what is permitted by license of the boundaries of the guidelines in Fair Use, permission should be obtained from the copyright owner

Academic Information

5. The faculty, staff member or student will be personally responsible for the defense of an action for copyright infringement.

Penalties for Copyright Infringement

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For “willful” infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines up to \$250,000 per offense.

Using the Four Factor Fair Use Test

Most people think that the fair use test is difficult. Actually, it is not so much difficult as it is uncertain – susceptible to multiple interpretations. Two people can review the same facts about a proposed use and come to different conclusions about its fairness. That is because one must make many judgements in the course of weighing and balancing the facts.

Attorneys read the “judgments of judges” to learn how to make judgments ourselves, but judges see things differently (one from another) too. Because “reasonable minds can disagree” about fair use, perhaps it is unrealistic to try to predict what a judge would think about a proposed use. But that is just what this test is about.

How it Works

With a particular use in mind:

- Read each question and the comments about it
- Answer each question about your use
- See how the balance tips with each answer
- Make a judgment about the final balance: overall does the balance tip in favor of fair use or in favor of getting permission?

The Four Fair Use Factors

1. What is the character of the use?
2. What is the nature of the work to be used?
3. How much of the work will you use?
4. What effect would this use have on the market for the original or for permissions if the use were widespread?

Factor 1: What is the character of the use?

Nonprofit

Criticism

Commercial

**Educational
Personal**

**Commentary
News Reporting
Parody
Otherwise “transformative” use**

Uses green tend to tip the balance in favor of fair use. The use red tends to tip the balance in favor of copyright owner – in favor of seeking permission. The uses in blue, if they apply, are beneficial; they add weight to the tipping force of uses in green and subtract weight from the tipping force of a use in red.

Imagine assigning a numerical weight to each use. A nonprofit educational use *other than uses in blue*, for example, making a copy of a journal article for a university class, might weigh five in favor of fair use. But a nonprofit educational use that is also criticism, for example, the inclusion by a faculty member of a quote from another’s work in a scholarly critique, would weigh even more in favor of fair use; about six or seven. That is because the uses in blue are “core” fair uses; the ones most dearly protected.

Even if they are for-profit, the core fair uses weigh in favor of fair use. That is why they subtract from the weight against fair use of a commercial use. A commercial duplication of an article from a journal might weigh five against fair use. But a commercial commentary or quotation would barely tip the scale, if at all.

This is not to suggest that fair use can be precisely quantitatively analyzed. Numbers are just a tool to illustrate how the facts interact and affect each other. Actually, numbers would not make the analysis any easier; copyright owners and users would have just as much trouble agreeing on any other judgment about fair use.

Factor 2: What is the nature of the work to be used?

**Fact
Published**

Fact and Imagination

**Imaginative
Unpublished**

Again, uses in green tip the balance in favor of fair use. Uses in red tip the balance in favor of seeking permission. But here, uses in blue tend to have little effect on the balance.

Which way is balance tipping after assessing the first two factors?

Factor 3: How much of the work will you use?

Small Amount

More than a small amount

This factor has its own peculiarities. The general rule holds true (uses green tip the balance in favor of fair use; uses in red tip the balance in favor of asking for permission), but if the first factor weighed in favor of fair use, one can use more of the work than if it weighed in favor of seeking permission. A nonprofit use of a whole work will weigh somewhat against fair use. A commercial use of a whole work would weigh significantly against fair use.

Academic Information

For example, a nonprofit educational institution may copy an entire article from a journal for students in a class as a fair use, but a commercial copy shop would need permission for the same copying. Similarly, commercial publishers have stringent limitations on the length of quotations, while a student writing a paper for a class assignment could reasonably expect to include lengthier quotes.

Which way does your balance tip after assessing the first three factors? The answer to this question will be important in the analysis of the fourth factor.

Factor 4: If this kind of use were widespread, what effect would it have on the market for the original or for permissions?

After evaluation of the first three factors, the proposed use is tipping towards fair use

Original is out of print or otherwise unavailable

No ready market for permission

Copyright owner is unidentifiable

Competes with (takes away sales from) the original

Avoids payment for permission (royalties) in an established permissions market

This factor is a chameleon. Under some circumstances, it weighs more than all the others put together. Under other circumstances, it weighs nothing. It depends on what happened with the first three factors.

Here is why

This factor asks, “If the use were widespread, would the copyright owner be losing money?” Well, actually, it asks “If the use was widespread, **and the use was not fair**, would the copyright owner be losing money? After all, if the use was fair, the copyright owner would not be entitled to any money at all, so he could not “lose” what he never would have had to begin with.

When you include in your assumptions the very conclusion that you are trying to reach (you **assume** a use is not fair in the process of trying to figure out **whether** it **is** fair), you violate a principle of logic – you engage in “circular reasoning”.

Courts deal with this propensity of the fourth factor to encourage circular reasoning by looking at the first three factors before evaluating the fourth. If the first three factors indicate that the use is likely fair, courts will not permit the fourth factor to convert an otherwise fair use to an infringing one. On the other hand, if the first three factors indicate that the use is likely not fair, courts are willing to consider lost revenues under the fourth factor. In this case they do not have to assume the conclusion in order to reach it. They reach the conclusion based on good evidence that the use is not fair. This means that if a use is tipping the balance in favor of fair use after the first three factors, the fourth factor should not affect the results, even if there is a market for permissions, even if the owner would lose money because of the use.

On the other hand, if a use is tipping the balance in favor of asking for permission one need not “assume” it is not fair. The first three factors show that it is not. Add to that active permissions market and the fourth factor will decisively tip the balance. Forget fair use. Get permission.

The facts in blue illustrate circumstances that also support fair use, as they indicate a lack of harm to the owner’s economic incentive.

Does the balance for your use tip in favor of fair use or in favor of getting permission after consideration of all four factors?

Student Policy for Proctored Exam

Objective

This policy outlines the expectations for proctoring and examination security for students during online exams, ensuring fairness and academic integrity.

Standards

Examinations are a critical tool in assessing student learning. Cheating on exams undermines academic integrity and is a violation of the Code of Conduct, as outlined in the Student Handbook.

Process

Honorlock proctoring is used for students taking online exams in both online and campus-based courses, as directed by faculty.

1. **Identity Verification:** Students are required to establish their identity by providing a valid photo ID during the authentication process.
2. **Technical Preparation:** Students must ensure their system is functioning properly before the exam. If any issues arise, students are encouraged to contact Honorlock for troubleshooting. If problems persist, students must notify their instructor or the college’s technical support team immediately.

Test Environment Requirements

1. **Choose a Distraction-Free Location:** Ensure you are in a quiet, secure space where you will not be interrupted during the exam.
2. **Complete a Room Scan:** Perform a complete room scan as required by Honorlock. [Click here](#) for detailed instructions on how to complete a proper room scan.
 - A successful scan includes showing the entire workspace, ensuring no prohibited materials are present.
3. **Verify Technology Requirements:** Ensure your system meets the technology requirements for online proctoring and have a backup external webcam available in case your built-in webcam fails.

System Requirements:

- Operating System: Windows 10, Windows 11, MacOSX 10.14 or higher, ChromeOS

Academic Information

- Browser: Google Chrome (version 120+)
- Internet Speed: 1.5 Mbps download, 750 Kbps upload

4. **Turn Off and Remove Other Devices:** All other devices, including tablets, phones, secondary computers, and additional monitors, must be turned off and removed from the examination area.
5. **Remove Prohibited Items:** Headphones, hats, and smartwatches must be removed and put away during testing.
6. **Clear Your Desk:** Remove all unauthorized materials, such as books, papers, or other devices, unless specifically permitted by your instructor.
7. **Understand Time Constraints:** Ensure you are aware of the allotted time for the exam and have enough time to complete it in one sitting.
8. **Remain at Your Computer:** Stay at your computer for the entire duration of the exam unless a pre-approved accommodation is provided.
9. **Secure Your Device:** Place your device on a firm surface (such as a desk or table) to prevent movement during the exam.
10. **Avoid Tilting the Screen:** If using a built-in webcam, do not tilt the screen after the initial setup to maintain a clear camera view.
11. **Ensure Proper Lighting:** Take the exam in a well-lit room and avoid sitting with your back to a window or other sources of bright light.

Additional Requirements

In some cases, instructors or the institution may have specific exam instructions or additional requirements. Be sure to review your course syllabus or exam description for any extra guidelines.

Prohibited Actions During Proctored Examinations

1. **Talking Aloud:** Unless otherwise permitted by accommodation, talking or whispering aloud during the exam is not allowed.
2. **Being Out of Camera View:** Your face, from chin to forehead, must remain visible in the camera frame throughout the entire exam.
3. **Wearing Obstructive Headwear:** Head coverings that obscure the face, such as hats or caps, are not allowed during the exam unless religious or medical accommodations are provided.
4. **Presence of Others:** No one else is allowed in the room where the exam is being taken.
5. **External Noise:** Avoid any additional noises or conversations with others during the exam.
6. **Off-Screen Viewing:** Keep your eyes focused on the screen throughout the exam. Off-screen viewing without permission can be flagged as suspicious behavior.
7. **Unauthorized Materials:** Use only the materials explicitly allowed by your instructor.
8. **Taking Pictures or Screenshots:** Photographing or screenshotting the exam is prohibited and will be considered academic dishonesty.
9. **Copying and Pasting:** Copying and pasting exam content is not allowed and is considered academic dishonesty.

10. **Virtual Machines:** The use of virtual machines is prohibited and can be detected during the pre-exam system check.
11. **Secondary Monitors:** Only one monitor attached to one computer is allowed during the exam.

Emergency Situations

If an emergency occurs during the exam (e.g., technical failures, family emergencies), students must notify their instructor and/or the institution's technical support team immediately. Instructors may allow the student to retake the exam if a valid emergency is confirmed.

Accommodations for Students with Disabilities

Students who require accommodations due to disabilities must contact the appropriate office to arrange the necessary support prior to the exam. Assistive technologies and special exam setups must be approved in advance.

Consequences of Academic Dishonesty

Exam recordings are reviewed by the course instructor and the Academic Dean. If cheating is identified, the student will be subject to disciplinary action, which may include failure of the exam, failure of the course, or dismissal from the college, in accordance with the Student Handbook.

Students have the right to appeal any disciplinary actions through the process outlined in the Student Handbook.

Checklist Before Starting the Exam

- Identity verification complete.
- Room scan performed.
- System and technology checked.
- Unnecessary devices removed.
- Desk cleared of prohibited items.
- Exam environment distraction-free.
- Time constraints understood.
- Exam instructions reviewed.

By adhering to these guidelines, students help create a fair, secure, and honest testing environment.

Financial Information

Balance Due and Debt Collection Policy

Dallas Institute recognizes its role in fostering personal initiative, planning, and responsibility in financial affairs as an integral part of the educational process. The administration believes each student has the primary responsibility for arranging financing and payment of his or her charges. Each student will, therefore, be held responsible for payment of all charges incurred at the College. The College maintains an Office of Financial Aid to make every effort possible to provide financial aid to any deserving student eligible to attend the College. Further, the College provides assistance to help the student as much as possible in his or her application for funds available.

Basic Standards and Controls

In general, charges shall be due and payable by the first day of the quarter. Charges that are incurred after the first day of the quarter shall be due when the charge is placed on the student's account. In any event, campuses shall establish timely billing processes consistent with this policy. Moreover, all policies and procedures established at each campus shall contain basic standards and controls to ensure maximum and timely collection, as noted below.

College Regulations

Academic regulations require students attending the College to make adequate arrangements to pay any debts that arise from their tuition by the College. Students are responsible for the payment of all charges incurred at the College. Students who have not paid their financial obligations for the prior term by the end of registration for the next term may be entered into the collection process.

Students with outstanding debts of current tuition or greater may make arrangements with the College for paying the debt while continuing enrollment. The payment period for the collection of the past due amount shall not exceed the enrolled quarter. Students with outstanding balances of current tuition must pay the entire balance prior to being allowed to re-enroll.

In addition, the College holds the right to withhold credits, educational services, issuance of all official transcripts, and academic records from any person whose financial obligations to the College (including delinquent accounts, deferred balances, and liability for damage) are due and remains unpaid.

Internal Controls: Action on non-payment of any tuition fees

The College should make all efforts possible to collect debts owed to the College by any person. After reasonable attempts have been made to collect a debt, the College should use all methods available outlined, including a collection agency.

Step 1

Account Due: Prior to the beginning of *each quarter*, the College will **send an invoice** to those that have balances due.

Step 2

Warning Notice: Within thirty (30) days of the start of each quarter, the College will send an invoice to those enrolled that have accounts which are past due. Every thirty days a report will be generated to find those that are behind in payments who have not made payment plans (or are not following the payment plan). The College will send a letter notifying students to make satisfactory arrangements for the payment of their debt. A letter will be sent to these students to inform them to make satisfactory arrangements within ten (10) days. (*Debt-Warning Letter*).

Step 3

Final Notice: At the sixtieth (60) day, the College will provide a list of all the students who have not paid all of their financial obligations nor made a satisfactory response to request for payment. A letter will be sent to these students giving them fourteen (14) days to pay in full. (*Pre-Collection Letter*).

Step 4

At the ninetieth (90) day, the College will produce a list of students who have failed to pay or make satisfactory arrangement for the payment of their debt. This list is then submitted to the collection agency and to accounts receivable.

Financial Appeals

Students who believe that the inability to pay off their previous promissory notes is due to a rare, extraordinary circumstance (e.g., unexpected major medical emergency and expense) may appeal to the administration for additional time to pay off their balance.

In exceptional circumstances the president may allow a student to be re-admitted on the subsequent receipt of all outstanding monies.

Exceptions

There shall be no tuition or fee liability established for a student who withdraws to enter military service prior to the end of an academic term for those courses in which the student does not receive academic credit.

Note: The term "military service" means full-time active duty in the Army, Navy (including Marine Corps), Air Force, Coast Guard of the United States, or qualifying National Guard duty during a war, other military operation, or national emergency as defined in Section 5 of the Higher Education Relief Opportunities for Students (HEROES) Act (Public Law 108-76).

Enlistment under a delayed enlistment plan does not constitute "full-time duty" until the student is required to leave school on the effective date of active duty as stated in the student's orders.

A student who is a member United States National Guard or the United States Reserve that is not called up for duty as defined above, is entitled to a refund only, if in the judgment of the campus president, the student is unable to attend classes due to hardship beyond the student's

Financial Information

control and the student has made bona fide efforts to permit continued class attendance. Documentation of membership on active duty in the military service shall be provided to and retained by the campus. In the event that a refund is granted to a student in National Guard or reserve status, documentation of the reasons for such action shall be in writing and retained by the campus.

Return to Title IV (R2T4)

Title IV financial aid funds are awarded under the assumption that a student will attend school for the entire quarter in which the aid was awarded. When a student withdraws from all courses for any reason, including medical withdrawals, the student may no longer be eligible for the full amount of Title IV funds that the student was originally scheduled to receive.

The return of funds (R2T4) is based upon the premise that students earn their financial aid in proportion to the amount of time in which they are enrolled. A pro-rated schedule is used to determine the amount of federal student aid funds the student will have earned at the time of the withdrawal. Thus, a student who withdraws in their second week of classes has earned less of their financial aid than a student who withdraws in their fifth week. Once more than 60% of the quarter is completed, a student is considered to have earned all of their financial aid and will not be required to return any funds.

When is R2T4 Required?

If a student's enrollment status changes for an entire quarter, (i.e. official, unofficial, and administrative withdrawals) the College must recalculate the student's financial aid award to determine the amount the student will have earned based on the date of withdrawal.

If a student does not begin attendance in all their classes, the College must recalculate the student's financial aid awards based on the lower enrollment status. For example, a student enrolls in a full-time course load (15 credit hours) but only attends three courses (10 credit hours); in this case the student's financial aid awards must be recalculated on the lower enrollment status (10 credit hours).

When a Student Fails All Classes

If a student fails to earn a passing grade in every course during a quarter (i.e. transcript shows F or W grades), the student is considered to have, for purposes of federal Title IV funds, unofficially withdrawn from the College. As a result, a federal withdrawal calculation will be performed to determine if any Title IV funds need to be repaid.

When is R2T4 not Required?

If you withdraw from one or more courses during a quarter but remain enrolled in a class(es), a R2T4 is not required. Withdrawing from one or more courses may however affect your Satisfactory Academic Progress (SAP) and in turn your financial aid eligibility for future quarters.

Timeliness of R2T4

The Financial Aid Office must determine the amount of financial aid that was earned and how much was unearned. The unearned aid is returned to the U.S. Department of Education by the College on the student's behalf. The College is required to recalculate Title IV funds within 30 days from the date of withdrawal. If funds need to be returned, the College is required to return funds within 45 days from the date of withdrawal.

Note: The amount of unearned aid will be returned to the U.S. Department of Education. Since the institutional refund policy is different than the R2T4 Policy, any return of funds may result in a balance due to the College. This is posted on your student ledger card, your student account, and must be repaid immediately.

How is the R2T4 Calculation Completed?

The Financial Aid Office must first determine the number of calendar days in the quarter, as well as the number of calendar days a student attended class. The percentage of earned Title IV financial aid is calculated based upon the number of days a student attended class, compared to the number of calendar days in the quarter.

Institutional charges are calculated and the amount that must be returned to each Title IV Program is determined. Funds are then returned to the programs according to regulatory requirements. Financial aid awards are adjusted as needed, which may result in charges due to the College.

Post-Withdrawal Disbursements

If you did not receive all the funds that you earned prior to your date of withdrawal, you may be due a Post-Withdrawal Disbursement (PWD). If your PWD includes loan funds, the College must get permission before it can disburse them by collecting a Post-Withdrawal Disbursement Authorization Form. You may choose to decline some or all the loan funds so that you do not incur any additional debt. The College may automatically use all or a portion of your PWD grant funds for tuition and fees charges (as contracted with the college).

Order of Return of TIV Funds

If Title IV funds are required to be returned, they are based on the following order of return:

1. Unsubsidized Direct Loan
2. Subsidized Direct Loan
3. Direct PLUS Loan
4. Federal Pell Grants
5. Iraq and Afghanistan Service Grants
6. FSEOG
7. Other TIV Programs

Financial Information

Withdrawal Date(s)

If you officially withdraw from the College, the withdrawal date (last date of attendance) used to determine your financial aid eligibility will be:

- The date that you last attended a course, as reported by your instructor(s), or
- The date that you last participated in an academically related activity.

If you unofficially withdraw by abandoning all your classes, the withdrawal date used to determine your financial aid eligibility will be:

- The date that you last attended a course, as reported by your instructor(s), or
- The date that you last participated in an academically related activity.

State Refund Policy

Cancellation Policy

A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day excluding Saturdays, Sundays, and legal holidays) after the enrollment contract is signed or within the student's first three scheduled class days (does not apply to Seminars).

Residence or Synchronous Distance Education Program Refund Policy

1. Refund computations will be based on scheduled course time of class attendance through the last date of attendance. Leaves of absence, suspensions and school holidays will not be counted as part of the scheduled class attendance.
2. The effective date of termination for refund purposes will be the earliest of the following:
 - a. The last day of attendance, if the student is terminated by the school;
 - b. The date of receipt of written notice from the student; or
 - c. Ten school days following the last date of attendance.
3. If tuition and fees are collected in advance of entrance, and if after expiration of the 72-hour cancellation privilege the student does not enter school, not more than \$100 in nonrefundable administrative fees shall be retained by the school for the entire residence program or synchronous distance education course.
4. If a student enters a residence or synchronous distance education program and withdraws or is otherwise terminated, the school or college may retain not more than \$100 in nonrefundable administrative fees for the entire program. The minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination. More simply, the

refund is based on the precise number of hours the student has paid for, but not yet used, at the point of termination, up to the 75% completion mark, after which no refund is due. Form PS-1040R provides the precise calculation.

5. Refunds for items of extra expense to the student, such as books, tools, or other supplies should be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books and tools until such time as these materials are required. Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund as long as they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.
6. A student who withdraws for a reason unrelated to the student's academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of "incomplete" and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.
7. A full refund of all tuition and fees is due and refundable in each of the following cases:
 - a. An enrollee is not accepted by the school;
 - b. If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
 - c. If the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner or representatives of the school.A full or partial refund may also be due in other circumstances of program deficiencies or violations of requirements for career schools and colleges.

Refund Policy for Students Called to Active Military Service

8. A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:
 - a. if tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;
 - b. a grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or

Financial Information

- c. assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:
 - i. satisfactorily completed at least 90 percent of the required coursework for the program; and
 - ii. demonstrated sufficient mastery of the program material to receive credit for completing the program.
- 9. The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 60 days after the effective date of termination.

General Student Information

1. Please keep your CURRENT address and telephone number registered with the administrative office.
2. All official class activities must be planned with the faculty sponsor or staff member.
3. Parking places provided for student use are located in the front and rear of the building. Most of the front area parking spaces are primarily for guests or faculty. Please park in the designated areas only.
4. If a student is having a problem with a subject or subjects, frequent advisory sessions should be arranged with the instructor of the course or some member of the college faculty. Students are encouraged to discuss any matter of concern with a faculty or staff member of the college.
5. The Administration asks the cooperation of the student body in keeping the vestibule and entrance hall clear, to be used for visitors and guests of the school. (Due to the frequent presence of guests and visitors to our campus, the students are asked not to lie down or sit on the floor in the hallways, especially since visitors are toured throughout the building).
6. A student should be in their seat in the classroom at the designated start time for class. The student should remain in their seat and attentive until the instructor has indicated that class is dismissed.
7. Students are to come into the business and administrative offices only on business matters. Business hours are 7:00 AM – 4:00 PM, Monday through Friday. Entrance to the administrative area should ONLY be by way of the main front door. If a staff member managing the front desk in the business office is busy with a visitor or tending to business over the telephone, access to the office may be delayed momentarily. Your patience and courtesy are requested and appreciated.
8. Check the student bulletin board (located in the student center) often; it is provided for the posting of items of interest to the general student body.
9. The student is held responsible for the breakage of laboratory or other equipment they are using. Students using any of the school property will be responsible for the articles used and must make restitution for damages or losses. Students are asked not to sit on desks or tables anywhere in the building or the counter-tops in the labs, the computer lab or kitchen areas. Lab chairs or chairs in the Student Center or Library are not to be removed from these areas without permission.
10. Students MUST NOT bring guests to class, including children, without prior approval of the administration. The conduct and well-being of the guest(s) will be the responsibility of the student host. Children MUST be always accompanied by an adult and are NOT to be left unattended. The school does not assume any liability for any student's guest(s) or family members while On-Campus.
11. A class schedule is given to each student at the beginning of each quarter and is posted in each classroom. Occasionally, changes to the schedule may be necessary. When this occurs, a revised schedule will be posted in advance in the classroom and announced as soon as possible. Students should be aware of the daily schedule. Any absence from class can cause difficulty especially when important schedule announcements are made.
12. Dallas Institute of Funeral Service does NOT guarantee transferability of any of the student's credits completed at this institution. Surveillance Camera Guidelines

This policy applies to all College personnel. Dallas Institute is using security cameras to monitor public areas in order to deter crime and to assist in security and safety of individuals and property of the College community. Video monitoring of public areas for security purposes at the College is limited to uses that do not violate the reasonable expectation of privacy. Surveillance camera monitoring for security purposes will be conducted in a professional, ethical, and legal manner. Monitoring individuals based on characteristics of race, gender, ethnicity, sexual orientation, disability, or other protected classification is prohibited. All information and/or observations made in the use of surveillance cameras are considered confidential and can only be used for official College and law enforcement purposes.

Scope

Surveillance cameras do not guarantee that someone on college property is safe from crime. There should not be an expectation that the surveillance cameras are being monitored 24 hours, seven days a week and that the College is going to observe and respond to a crime in progress. Security cameras serve to deter crime and do not imply prevention of crime.

Purpose

Dallas Institute is committed to enhancing the quality of life of the campus community by integrating the best practices of safety and security with technology. A critical component of a security plan is the utilization of a surveillance camera system. The surveillance of public areas is intended to deter crime and assist in protecting the safety and property of the College. These guidelines address the College's safety and security needs while respecting individual privacy of those attending, working, or visiting our college.

Installation Procedures and Locations

The use of surveillance cameras is limited to uses that do not violate a person's "reasonable expectation of privacy", as that term is defined by law. All surveillance cameras will only be installed with the advance approval of the president of the college. The College's use of surveillance cameras for monitoring or recording must be used in a professional, ethical, and legal manner consistent with all existing College policies. Although not legally required to do so, the College will inform student/personnel when surveillance cameras are utilized. Surveillance cameras will not view private bedrooms, bathrooms, or offices.

Viewing

Only authorized personnel, as determined by the president of the college, will view surveillance camera footage whether live video feed or recording, or have access to surveillance monitoring. The president of the college will ensure that personnel involved in live camera monitoring or recordings will perform their duties in a legal, responsible, and ethical manner. PMC personnel viewing camera footage will not discuss any information contained within or regarding the footage to any individual outside of the college or to personnel that have not been authorized by the president of the college.

Retention and Release of Information

Images obtained through surveillance monitoring or recording will be retained for a length of time deemed appropriate for the purpose of monitoring. Those images that are being used for a criminal and/or judicial investigation must be kept until the case has been officially closed.

College personnel are prohibited from using or disseminating information acquired from surveillance cameras except for official purposes. All information and/or observations made in the use of surveillance cameras are considered confidential and can only be used for official College and law enforcement purposes. Information and results obtained through surveillance monitoring or recording will only be released when authorized by the president of the College.

All requests from sources external to the College for the release of information and results obtained through surveillance monitoring or recording must be submitted to the president of the College.

E-Mail Policy

E-mail is a critical mechanism for communication at the College. Its e-mail system and services are a privilege, not a right, and therefore must be used with respect and in accordance with the rules, regulations, and policies of the College.

Resources, Services & College Information

Official Communication

Official e-mail communication is intended only to meet the academic and administrative needs of the College community. The College uses e-mail as the official means of communication with faculty, staff, and students. E-mail communication may include policy announcements, schedule changes, emergency notifications, financial aid, and billing data, college deadlines, important campus news, events and updates, and other information of a critical or timely nature. Faculty, staff, and students may not opt-out from receiving a College e-mail account or e-mail communications.

Purpose and Scope

The purpose of the e-mail communication policy is to establish an official mode of College communication with faculty, staff, and students. Each faculty, staff, and students have been provided with an .edu e-mail account for official College communication. Electronic and computing resources are the property of the college and shall be used for legitimate instructional, administrative, research, public service, and other approved purposes.

E-mail Account Responsibilities

Each College faculty and staff member receives an .edu e-mail account upon their hiring or enrollment. Personal e-mail accounts are prohibited from being used for official college e-mail communications. Students of the College are responsible for receiving and reading all College communication sent to them via their College assigned e-mail accounts in a timely fashion. Students have the responsibility to recognize that certain communications may be time critical. E-mail automated forwarding to other e-mail accounts is not supported by the College. Only the College provided e-mail account is to be used when conducting College communication through e-mail. Failure to check for messages and failure to receive messages due to full mailboxes or auto-forwarded e-mail are not acceptable excuses for missing official College communications.

E-mail access is controlled through individual accounts and passwords. It is the responsibility of each user to protect the confidentiality of their account and password information and be the only user of the account. E-mail access will be terminated when the e-mail account holder terminates his or her association with the College. This will normally occur within a 1-month period.

Recording Policy

The purpose of this policy is to set forth expectations regarding the recording of classes, meetings or other conversations at the College, offsite at College organized events, funeral homes, clinical cases, and over the phone between members of our community. The intent of this policy is to strike a balance between the legitimate uses of audio and visual recordings, and concerns, including compliance with the law, privacy, and protection of intellectual property. In an effort to promote the freedom to share ideas and to respect the privacy of community members, the secret recording (in all forms) of meetings or other conversations is prohibited. Classes may be audio recorded by the instructor, or by a student in the class (the student must submit a request in writing), with the prior written consent of the College President, set forth in the policy.

Policy

It is expected that faculty, students, and staff will respect the privacy of other individuals in the workplace and educational setting. Consequently, the secret recording (audio or video) or photographing of classes, meetings or other conversations, including telephone calls, is prohibited. The College does not condone recording of any College activities when participants are unaware that such recordings are being made. In order to promote an environment of trust and collegiality, recordings may be made only with the prior consent of the parties involved. No employee, student, or those who are listed on the student's release form, may use a device to observe, or record the activities of another which occur in any private place, meeting, telephone conversation, public view, funeral home property, preceptor location, organized event, clinical cases, and out of the public view unless the person making the recording gets the consent of all the persons observed.

Audio recording (audiotaping), photorecording (or photographing), video recording (videotaping) and/or digital recording in any format is prohibited of any setting which has a deceased body, may have the deceased near, or within the proximity is strictly prohibited.

Audio recording (audiotaping), photorecording (or photographing), video recording (videotaping) and/or digital recording in any format, including cell phones, of lectures, lecture/assessment material, laboratories, laboratory material, clinical settings, especially embalming labs, is prohibited without the written permission of the instructor(s), preceptor(s), faculty, or College President. All requests for such recordings (tappings) must be submitted to the instructor(s) or faculty member(s) in writing prior to the lecture, laboratory, or clinical experience, and approved by the College President. If approved, the student must be present

Resources, Services & College Information

while recording (taping), unless there are previously approved extenuating circumstances. All such recordings (tapings) are for the exclusive use of the student who has been given permission to record (tape), and cannot be distributed to other students without the written permission of the College President. Distribution of recorded (taped) lectures or lecture materials in any format or venue without written permission will result in disciplinary action. In any event, no recording may be shared or distributed outside of the College without the written permission of the President.

Audio recording (audiotaping), photorecording (or photographing), video recording (videotaping) and/or digital recording in any format of meetings with instructors, faculty and/or administrators is strictly prohibited. Unauthorized recordings (tapings) are unprofessional and will result in disciplinary action. The **Meeting Form** must be completed and signed prior to conducting the meeting.

Covert/secret recording of any in-person or telephone conversation or meeting occurring at the workplace, including any classroom or other educational setting, or conversations or meetings on-campus or offsite that deal with workplace or educational matters is prohibited. Employees are also prohibited from arranging for others to record conversations, telephone calls, or other work or educational activities, unless specifically permitted by all participants with the approval of the College President. It is also a violation of this policy to download recorded conversations to a computer, upload them to the internet, or otherwise share, transmit or publish such recordings without the prior written consent of all participants (unless the instructor or College President has agreed in writing to such action and the recording is a recording of the instructor's class or other approved circumstances). All written consents must be submitted to the College President and placed within the HR record, or student record, for record maintenance purposes.

ADA students who have approved accommodations for class recordings may record class lectures. Qualified ADA individuals with documented disabilities, who have College approved accommodations, may have the appropriate auxiliary aids to enable them to participate effectively in the educational program. In all circumstances, class recordings by students may not be downloaded to another's computer, uploaded to the internet, or otherwise shared, transmitted or published without the further, prior written consent of the College President.

Video recordings present additional privacy concerns, and potential concerns with copyright and intellectual property issues. Therefore, video recordings should only be allowed under conditions completely understood, submitted in writing, and approved by the College President. Students are not permitted to video record of any kind unless a student has been previously approved due to a disability. Video recordings shall not be publicly shared, such as on the internet or in public viewings, without the written consent of the College President. Instructors may record their own lectures, using a College-owned and sanctioned technology, and make such recordings available to students in the closed Learning Management System environment, for purposes of private or group study, tutorials, training, educational resources, or for recorded lecture purposes.

Classes may be audio recorded by the instructor, or by a student in the class (the student must submit a request in writing), for only the purpose of studying with the prior written consent, approved by the College President. In all circumstances, class recordings by students may not be

downloaded to another's computer, uploaded to the internet, or otherwise shared, transmitted or published without the further, prior written consent of the College President.

Photography of any kind is prohibited in College labs, funeral homes, preceptor locations, during clinical cases, or the like.

Surveillance cameras/equipment and software is placed on-campus by authorized campus personnel to prevent or deter crimes and protect public safety and to facilitate official College investigations into criminal activities or violations of campus policy.

Violation of the law may lead to criminal sanctions and/or exposure to civil liability. Within Dallas Institute, violation of this policy by a student may lead to disciplinary action. Violation of the policy by an employee may lead to disciplinary action up to possible termination.

Social Media

Introduction

Dallas Institute welcomes the responsible use of social media technologies to support engaged and transformative learning and to reach out effectively to our broader community. Our diverse use of social media allows us to share, in a public way, the many qualities and strengths of our academic institution. Dallas Institute uses social media to build relationships with important constituencies like prospective and current students, donors, and alumni. Social media are powerful communications tools that have a significant impact on organizational and professional reputations. It is important to remember that we are subject to the same laws, professional expectations, Code of Conduct, and guidelines when interacting online as we would in-person with students, parents, alumni, donors, and the media.

Social Media Policy Scope

This policy applies to all use of social media by the College students, faculty, and staff to represent or discuss matters concerning the College and/or members of the College community, whether or not such use involves the College's network or other computer resources. "Social media" is a term used to describe tools and platforms that enable individuals to share ideas and content quickly and easily. Social media are defined as media designed to be disseminated through social interaction, created using highly accessible and available publishing techniques. The popular venues are numerous and include social networking sites, such as, without limitation; texting, blogs and propriety platforms such as Twitter, Facebook, iTunes, Pinterest, Instagram, LinkedIn®, YouTube, Blogs, chat rooms, LMS, email, Snapchat and Flickr® to name a few. The lack of explicit reference to a specific social media site does not limit the extent of the application of this policy.

Faculty and Staff Social Media Policy

Dallas Institute seeks to promote free and open discussion on social media sites, subject to its existing codes and policies. While all members of the community, students, staff, and faculty are expected to adhere to codes of conduct reflective of the values of the College, both on and offline, the College Student Social Media Policy recognizes that employees of the College are governed by personnel policies that may use different guidelines for using social media.

Resources, Services & College Information

Account Administrators

All social media accounts officially recognized by the College must always have a faculty or staff member as an administrator. Should a College employee administrator of an account leave the College for any reason or no longer wish to be an account administrator, it is the President's responsibility to designate another employee to be an account administrator prior to removing himself or herself from that role. College employees identified as administrators of accounts are held responsible for managing and monitoring the content of their officially recognized accounts. Administrators are responsible for removing content that may violate the College's Conduct Policies. All user names and passwords must be stored, kept, and maintained by the President of the College.

Student Social Media Policy

Dallas Institute seeks to promote free and open discussion on social media sites, subject to its existing codes and policies. This policy applies to all College students, faculty, and staff who use social media to represent or discuss any matter concerning the College, whether or not such use involves the College's network or other computer resources. The use of social media at or concerning the College is governed by the same laws, policies, and rules of conduct and etiquette that apply to all other activities at or concerning the College. Activities of a private nature conducted away from the College can subject you to disciplinary action if those actions reflect poorly on the College or interfere with the conduct of College business.

All members of the community, students, staff, and faculty are expected to adhere to codes of conduct reflective of the values of the College, both on and offline. The following guidelines govern student communications administered on social media sites as well as those sites which lead to a complaint:

1. The Student Code of Conduct and other College policies apply online just as they would offline. Individual students and student organizations are expected to abide by the Student Code of Conduct. Students may be accountable to the College for acts on personal social media site(s) that violate the Student Code of Conduct.
2. Concerns about conduct online should be reported to the Dean or President of the College.
3. Posting of any kind by an individual that relates to the program clinicals, preceptor, funeral home, or practicum is strictly prohibited.
4. Livestreaming with any platform within and on the property of the College is strictly prohibited. Livestreaming off-campus must abide by the same rules within the Social Media Policy, Student Code of Conduct, and College Catalog.
5. The College has no duty to monitor and will not take on the duty to monitor any social media sites, including, but not limited to, those administered by College personnel.
6. Notwithstanding this, the College reserves the right to take down posts on pages administered by College personnel when considered to be necessary, including, but not limited to, violations of the College's codes and policies.
7. The College also reserves the right to block individuals' access to social media sites administered by College personnel when they have been found to have engaged in violations of the College's codes and policies on such sites.

Resources, Services & College Information

8. Conduct online, including on social media sites, otherwise can be subject to discipline in accordance with the College's codes and policies.
9. It is prohibited from using the College's name or image to endorse an opinion, product, cause, business, or political candidate or otherwise holding yourself as a representative of the College when you are not.
10. Post must be consistent with the mission of the College. Post on social media sites should protect the College's institutional mission and voice. Appropriate etiquette includes using language that is professional in tone, taste, and content.
11. Take responsibility and use good judgment. Incomplete, inaccurate, threatening, harassing posts or profanity on postings are strictly prohibited, including but are not limited to written posts and emoji symbols. Students can receive sanctions by the College for commentary, content, recordings, videoing, or images that are defamatory, proprietary, harassing, libelous, or that create a hostile work or learning environment, or that contravenes the College's Student Code of Conduct or Ethics.
12. It is inappropriate to use social media sites as a venue for venting. Written, video, or photographic posts directed toward a student, institutional, or faculty/staff as well as environmental surroundings, are strictly prohibited. Example: A student posts on Facebook about his frustration with a course instructor (or preceptor) after he is given feedback. The instructor is not identified by name but is identified by title (my course instructor, or my preceptor), with negative or derogatory comments. Another example is posting photographs of facilities or any component within a facility with or without comments.
13. Negative or derogatory posts that may affect the program's ability to operate are strictly prohibited.
14. Anonymous posts will be thoroughly researched to identify the corresponding IP address.
15. All laws governing copyright and fair use of copyrighted material must be followed.
16. The College name and College email addresses may not be used on social media sites and online forums for personal communication.
17. Any attempt by a member of the College community to obscure his/her identity as a means to circumvent the prohibitions listed herein by representing himself/herself as another person, real or fictitious, is strictly prohibited
18. Posting any student records on social media by any individual within the College community is strictly prohibited under the FERPA regulations.
19. Should a student be found in violation of misconduct online, they may be charged, and a sanction(s) determined.

Failure to follow the above-stated guidelines may be considered a breach of appropriate professional behavior, Student Code of Conduct Policies, and the Social Media Policy, and are subject to discipline, up to and including dismissal from the Program.

Legal Liability

Students are legally liable for anything they write, present, or submit online. Nothing published on the internet is confidential. Students can receive sanctions by the College for commentary, content, recordings, videoing, or images that are defamatory, proprietary, harassing, libelous, or that create a hostile work or learning environment, or that contravenes the College's Student

Code of Conduct or Ethics. Students may be subject to legal action by any individual, agency, or organization that views their commentary, content as defamatory, proprietary, harassing, libelous, or that creates a hostile work or learning environment, or as contravening their right to privacy and confidentiality.

Non-Compliance/Breach of Policy

Violations of this policy will result in a review of the incident and may include action under appropriate College discipline processes. Corrective action may involve a verbal or written warning, suspension or dismissal and/or termination of the College, the Program, employment, or privileges with College. This section does not preclude disciplinary action for conduct that involves social media, and that also violates other College policies. See the Student Code of Conduct.
